● 技术特色 PRIMARY CHARACTERISTIC

本机为新一代智能超高速全自动包缝机，全新现代化的外观设计，美观大方，嵌入式操作面板，简便时尚。

采用内置式直驱电机，具有全人工、半自动、全自动三种模式可供用户选择；具有电动抬压脚、电动剪线、自动起步、自动缝绉、自动停车功能；具有废料吸收式集尘装置；最高转速可达7000转/分钟。本机省电60%以上同时提高生产效率30%以上，适用于针织内衣、薄中厚料服装及皮革制品等。

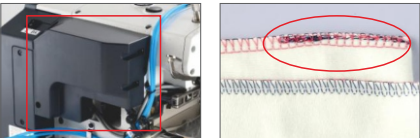

This is a new generation of Smart Super High-speed Automatic Overlock Sewing Machine series, the new modern design, nice, embedded operation panel, simple and stylish.
The machine adopts built-in direct drive motor, with all manual, semi-automatic, automatic three modes for users to choose; with electric foot lifter, electric cut line, automatic start, automatic sewing, automatic stop; Waste suction dust collector; the maximum speed of up to 7000 r / min.
The machine saves power more than 60% while improving the production efficiency of more than 30%, it's suitable for knitted underwear, thin, medium and thick clothing and leather products.

- 增加松线装置，起缝包线头，免除人工修剪
- 具有布料识别功能，适应广，操作便捷
- 三光眼感应剪线，剪线稳定，线头短
- 步进电机取代电磁铁，灵活可调更耐用
- 前后吸风，吸除废料，保持工作环境整洁

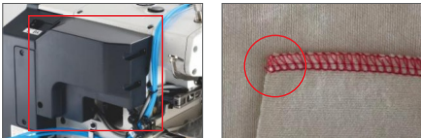

- Add thread-loosing device, back latching thread head when start sewing, no need manual trimming
- With fabric identification function, wide adaptation, convenient operation
- Three-light eye induction cutting line, stable cutting line, short thread head
- Stepper motor replaces electromagnet, flexible adjustable more durable
- Front and rear suction, suction waste, keep the working environment clean
